## Benin ALMA Quarterly Report Quarter Two, 2014

### Progress

Benin has made significant progress in malaria control policy, including banning the importation and sale of oral artemisinin-based monotherapies. Benin has introduced Community Case Management of malaria and pneumonia. The country has sufficient finances available to cover the 2014 requirements for LLINs, ACTs, and RDTs. The country has also made good progress on tracer MNCH interventions, in particular increasing skilled birth attendants, vitamin A, and DPT3 vaccination coverage. The country has successfully reduced under-five child mortality by 50% since 1990.

### Impact

The annual reported number of malaria cases in 2012 was 1,151,038 with 2,261 deaths.

### Key Challenge

- Securing longer-term finances for malaria control.
