

Scorecard for Accountability and Action

Metrics

Policy and Financial Control	
Oral Artemisinin Based Monotherapy Ban status (2014)	<span style="background-color: #92d050; border: 1px solid black;"></span>
Community case management (Pneumonia)	<span style="background-color: #92d050; border: 1px solid black;"></span>
Community case management (Malaria)	<span style="background-color: #92d050; border: 1px solid black;"></span>
World Bank rating on public sector mgmt and institutions 2013 (CPIA Cluster D)	<span style="background-color: #ff0000; border: 1px solid black; padding: 2px;">2.7</span>
Commodities Financed, Implementation and Malaria Impact	
LLIN financing 2014 projection (% of need)	<span style="background-color: #ff0000; border: 1px solid black; padding: 2px;">▼ 30</span>
Public sector RDT financing 2014 projection (% of need)	<span style="background-color: #ffff00; border: 1px solid black; padding: 2px;">▲ 73</span>
Public sector ACT financing 2014 projection (% of need)	<span style="background-color: #ffff00; border: 1px solid black; padding: 2px;">54</span>
Operational LLIN/IRS coverage (% of at risk population)	<span style="background-color: #92d050; border: 1px solid black; padding: 2px;">100</span>
On track in 2012 to Reduce Malaria Incidence by >75% by 2015 (vs 2000)	<span style="background-color: #ffff00; border: 1px solid black;"></span>
Tracer Indicators for Maternal and Child Health	
PMTCT coverage 2012 (% pregnant HIV pts receiving ARVs)	<span style="background-color: #ffff00; border: 1px solid black; padding: 2px;">44</span>
% deliveries assisted by skilled birth attendant	<span style="background-color: #ffff00; border: 1px solid black; padding: 2px;">45</span>
Exclusive breastfeeding (% children < 6 months)	<span style="background-color: #ffff00; border: 1px solid black; padding: 2px;">48</span>
Vitamin A Coverage 2012 (2 doses)	<span style="background-color: #92d050; border: 1px solid black; padding: 2px;">▲ 99</span>
DPT3 coverage 2012 (vaccination among 12-23 month olds)	<span style="background-color: #ffff00; border: 1px solid black; padding: 2px;">59</span>
Postnatal care (within 48 hrs)	<span style="background-color: #cccccc; border: 1px solid black;"></span>

The entire population of Guinea is at high risk of malaria. The annual reported number of malaria cases in 2012 was 1,233,036 with 332 deaths.

Key

<span style="background-color: #92d050; border: 1px solid black;"></span>	Target achieved or on track
<span style="background-color: #ffff00; border: 1px solid black;"></span>	Progress but more effort required
<span style="background-color: #ff0000; border: 1px solid black;"></span>	Not on track
<span style="background-color: #cccccc; border: 1px solid black;"></span>	No data/Not applicable

# Guinea ALMA Quarterly Report

## Quarter Two, 2014

### Progress

Guinea has banned oral artemisinin-based monotherapies and has introduced a policy on Community Case Management of malaria and pneumonia. Resources have been mobilised through the Global Fund and sufficient LLINs have been distributed to achieve 100% operational coverage. Guinea has achieved a 58% reduction in under-five child mortality since 1990. Guinea has achieved high coverage of the tracer MNCH intervention of vitamin A supplementation.

### Impact

The annual reported number of malaria cases in 2012 was 1,233,036 with 332 deaths. Progress in reducing cases has been reported sub-nationally where interventions have been intensified.

### Key Challenge

- Limited number of partners involved in the financing and implementation of programme activities.

### Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Address funding	Ensure the NFM concept note is submitted by Q4 2014 and ensure that resources are allocated to malaria control at a level that is sufficient to sustain the gains made in recent years	Q4 2014		The country submitted the GF NFM concept note
Enact high level policy and strategy change	Improve rule-based governance, quality of budgetary and financial management, efficiency of revenue mobilisation, quality of public administration, and transparency and accountability in the public sector	Q2 2014		There has been a 0.1 increase in the country's Cluster D CPIA
MNCH <sup>1</sup> : Optimise quality of care	Prioritise the collection of postnatal care data	Q1 2014		The country recommends postnatal follow up contacts by a trained provider for mother and newborn and recommends Kangaroo Mother Care for low birth weight newborns. The country reports 41% coverage of postnatal care

### Key

	Action achieved
	Some progress
	No progress
	Deliverable not yet due
