

Scorecard for Accountability and Action

Malaria is present throughout Burkina Faso, with transmission most intense in the southern part of the country. The annual reported number of malaria cases in 2013 was 7,146,026 with 6,294 deaths.

Metrics

Policy and Financial Control		
Oral Artemisinin Based Monotherapy Ban status (2015)		
Community case management (Pneumonia)(2015)		
Community case management (Malaria)(2015)		
World Bank rating on public sector mgmt and institutions 2013 (CPIA Cluster D)		3.7
Commodities Financed, Implementation and Malaria Impact		
LLIN financing 2015 projection (% of need)		100
Public sector RDT financing 2015 projection (% of need)	▲	100
Public sector ACT financing 2015 projection (% of need)		100
Operational LLIN/IRS coverage (% of at risk population)		100
On track in 2013 to Reduce Malaria Incidence by >75% by 2015 (vs 2000)		
Tracer Indicators for Maternal and Child Health		
PMTCT coverage 2013 (% pregnant HIV pts receiving ARVs)		62
% deliveries assisted by skilled birth attendant		66
Exclusive breastfeeding (% children < 6 months)		38
Vitamin A Coverage 2012 (2 doses)		99
DPT3 coverage 2013 (vaccination among 12-23 month olds)		88
Postnatal care (within 48 hrs)		72

Key

	Target achieved or on track
	Progress but more effort required
	Not on track
	No data/Not applicable

Progress

Burkina Faso has banned the import and sale of oral artemisinin-based monotherapies. The country has introduced a policy on Community Case Management of malaria and pneumonia. The country has secured sufficient resources for the procurement of the LLINs, ACTs and RDTs required for 2015. Burkina Faso has made good progress in tracer MNCH interventions including DPT3, vitamin A coverage, postnatal care, and PMTCT coverage. Burkina Faso was awarded a 2015 ALMA Award for Excellence in Implementation of Vector Control. Burkina Faso has significantly enhanced the tracking and accountability mechanisms with the development of the Maternal, Newborn and Child Health Scorecard.

Impact

The annual reported number of malaria cases in 2013 was 7,146,026 with 6,294 deaths. Progress in reducing cases has been reported sub-nationally where interventions have been intensified.

Key Challenge

- Insecticide resistance threatens vector control effectiveness.

Recommended Action

Burkina Faso has responded positively to the recommended action to address low coverage of exclusive breastfeeding and continues to track progress as this action is implemented.
