

## Scorecard for Accountability and Action

The entire population of Equatorial Guinea is at high risk of malaria and the transmission is intense all year round. The annual reported number of malaria cases in 2012 was 15,169 with 77 deaths.

### Metrics

Policy and Financial Control	
Oral Artemisinin Based Monotherapy Ban status (2014)	<span style="background-color: #90EE90;"> </span>
Community case management (Pneumonia)	<span style="background-color: #90EE90;"> </span>
Community case management (Malaria)	<span style="background-color: #90EE90;">▲</span>
World Bank rating on public sector mgmt and institutions 2013 (CPIA Cluster D)	<span style="background-color: #A9A9A9;"> </span>
Commodities Financed, Implementation and Malaria Impact	
LLIN financing 2014 projection (% of need)	<span style="background-color: #FF0000;"> </span> 27
Public sector RDT financing 2014 projection (% of need)	<span style="background-color: #FF0000;"> </span> 20
Public sector ACT financing 2014 projection (% of need)	<span style="background-color: #FF0000;"> </span> 25
Operational LLIN/IRS coverage (% of at risk population)	<span style="background-color: #FFFF00;"> </span> 53
On track in 2012 to Reduce Malaria Incidence by >75% by 2015 (vs 2000)	<span style="background-color: #A9A9A9;"> </span>
Tracer Indicators for Maternal and Child Health	
PMTCT coverage 2013 (% pregnant HIV pts receiving ARVs)	<span style="background-color: #A9A9A9;"> </span>
% deliveries assisted by skilled birth attendant	<span style="background-color: #FFFF00;"> </span> 68
Exclusive breastfeeding (% children < 6 months)	<span style="background-color: #FF0000;"> </span> 7
Vitamin A Coverage 2012 (2 doses)	<span style="background-color: #A9A9A9;"> </span>
DPT3 coverage 2012 (vaccination among 12-23 month olds)	<span style="background-color: #FF0000;"> </span> 33
Postnatal care (within 48 hrs)	<span style="background-color: #FFFF00;"> </span> 56

### Key

<span style="background-color: #90EE90;"> </span>	Target achieved or on track
<span style="background-color: #FFFF00;"> </span>	Progress but more effort required
<span style="background-color: #FF0000;"> </span>	Not on track
<span style="background-color: #A9A9A9;"> </span>	No data/Not applicable

## Equatorial Guinea ALMA Quarterly Report Quarter Three, 2014

### Progress

Equatorial Guinea has made progress with malaria control on Bioko Island and is working to extend this success to the mainland. The country has introduced a policy of Community Case Management of pneumonia and malaria and has recently banned oral artemisinin-based monotherapies.

### Impact

The annual reported number of malaria cases in 2012 was 15,169 with 77 deaths.

### Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Build capabilities	The country to ensure it updates the RBM road map with current information and report on progress, gaps and challenges	Q2 2012		The country has updated the RBM roadmap and is also updating the information included in the scorecard
Address funding	Ensure that sufficient domestic resources are committed to malaria control	Q4 2014		Deliverable not yet due
MNCH <sup>1</sup> : Optimise quality of care	a) The country is advised to invest resources in a well-structured and sustainable Expanded Programme on Immunization	Q1 2013		The country reports 38% DPT3 coverage in the first quarter 2014, indicating a small increase in coverage
	b) Address reasons for decreasing breastfeeding coverage	Q1 2014		No progress reported
	c) Investigate and address reasons for low vitamin A coverage in 2011	Q4 2014		Deliverable not yet due

### Key

	Action achieved
	Some progress
	No progress
	Deliverable not yet due
