

Scorecard for Accountability and Action

Malaria transmission in Kenya ranges from intense in lowland areas to unstable epidemic-prone in the highlands. The annual reported number of malaria cases in 2012 was 5,788,381 with 785 deaths.

Metrics

| Policy and Financial Control | | |
|--|---|-----|
| Oral Artemisinin Based Monotherapy Ban status (2014) | | |
| Community case management (Pneumonia) | | |
| Community case management (Malaria) | | |
| World Bank rating on public sector mgmt and institutions 2013 (CPIA Cluster D) | | 3.4 |
| Commodities Financed, Implementation and Malaria Impact | | |
| LLIN financing 2014 projection (% of need) | | 100 |
| Public sector RDT financing 2014 projection (% of need) | | 100 |
| Public sector ACT financing 2014 projection (% of need) | | 68 |
| Operational LLIN/IRS coverage (% of at risk population) | ▼ | 87 |
| On track in 2012 to Reduce Malaria Incidence by >75% by 2015 (vs 2000) | | |
| Tracer Indicators for Maternal and Child Health | | |
| PMTCT coverage 2013 (% pregnant HIV pts receiving ARVs) | ▲ | 63 |
| % deliveries assisted by skilled birth attendant | | 44 |
| Exclusive breastfeeding (% children < 6 months) | | 32 |
| Vitamin A Coverage 2012 (2 doses) | | 66 |
| DPT3 coverage 2012 (vaccination among 12-23 month olds) | | 83 |
| Postnatal care (within 48 hrs) | | 42 |

Progress

Kenya has made steady progress in scaling-up malaria control interventions and has been successful in attracting funding including from the Global Fund, DFID, and PMI. The country has banned oral artemisinin-based monotherapies and has introduced a policy of Community Case Management of malaria. The country has successfully secured the resources to complete the LLIN coverage campaign. Kenya has significantly enhanced the tracking and accountability mechanisms with the development of a Reproductive, Maternal, Newborn and Child Health Scorecard.

Impact

The annual reported number of malaria cases in 2012 was 5,788,381 with 785 deaths. Progress in reducing cases has been reported sub-nationally where interventions have been intensified.

Key Challenges

- Ensuring private sector ACT coverage post-AMFm.
- The lack of new resources allocated to malaria in the Global Fund New Funding Model jeopardises the country's ability to sustain the impressive gains made in the fight against malaria.

Previous Key Recommended Actions

| Objective | Action Item | Suggested completion timeframe | Progress | Comments - key activities/accomplishments since last quarterly report |
|--|--|--------------------------------|----------|---|
| Address funding | Ensure the NFM concept note is submitted by Q1 2015 and ensure that resources are allocated to malaria control at a level that is sufficient to sustain the gains made in recent years | Q1 2015 | | Deliverable not yet due |
| MNCH ¹ : Optimise quality of care | Identify and address reasons for decreasing DPT3 coverage | Q2 2015 | | Deliverable not yet due |

New Key Recommended Action

| Objective | Action Item | Suggested completion timeframe |
|--------------------------|---|--------------------------------|
| Optimise quality of care | Accelerate procurement of the outstanding LLINs to address falling coverage | Q3 2015 |

Key
