

**Scorecard for Accountability and Action**

**Metrics**

Policy and Financial Control	
Oral Artemisinin Based Monotherapy Ban status (2014)	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span>
Community case management (Pneumonia)(2014)	<span style="background-color: #cccccc; border: 1px solid black; width: 20px; height: 10px;"></span>
Community case management (Malaria)(2014)	<span style="background-color: #cccccc; border: 1px solid black; width: 20px; height: 10px;"></span>
World Bank rating on public sector mgmt and institutions 2013 (CPIA Cluster D)	<span style="background-color: #cccccc; border: 1px solid black; width: 20px; height: 10px;"></span>
Commodities Financed, Implementation and Malaria Impact	
IRS financing 2014 (% of at-risk population)	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span> 100
Public sector RDT financing 2014 projection (% of need)	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span> 100
Public sector ACT financing 2014 projection (% of need)	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span> 100
IRS Operational Coverage (%)	<span style="background-color: #ffff00; border: 1px solid black; width: 20px; height: 10px;"></span> 68
On track in 2013 to Reduce Malaria Incidence by >75% by 2015 (vs 2000)	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span>
Tracer Indicators for Maternal and Child Health	
PMTCT coverage 2013 (% pregnant HIV pts receiving ARVs)	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span> 95
% deliveries assisted by skilled birth attendant	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span> 95
Exclusive breastfeeding (% children < 6 months)	<span style="background-color: #ff0000; border: 1px solid black; width: 20px; height: 10px;"></span> 20
Vitamin A Coverage 2012 (2 doses)	<span style="background-color: #cccccc; border: 1px solid black; width: 20px; height: 10px;"></span>
DPT3 coverage 2012 (vaccination among 12-23 month olds)	<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span> 96
Postnatal care (within 48 hrs)	<span style="background-color: #cccccc; border: 1px solid black; width: 20px; height: 10px;"></span>

Malaria transmission is highly seasonal occurring between December and April mostly in the northern part of the country. The annual reported number of confirmed malaria cases in 2013 was 456 with 7 deaths.

**Key**

<span style="background-color: #92d050; border: 1px solid black; width: 20px; height: 10px;"></span>	Target achieved or on track
<span style="background-color: #ffff00; border: 1px solid black; width: 20px; height: 10px;"></span>	Progress but more effort required
<span style="background-color: #ff0000; border: 1px solid black; width: 20px; height: 10px;"></span>	Not on track
<span style="background-color: #cccccc; border: 1px solid black; width: 20px; height: 10px;"></span>	No data/Not applicable

## Progress

Botswana has banned oral artemisinin-based monotherapies and has successfully mobilised resources for malaria control with sufficient financing available for IRS and malaria treatment in 2014. Significant progress has been made in scaling-up malaria control interventions, including case management. Good coverage has been achieved in tracer MNCH interventions, including PMTCT coverage, deliveries by skilled birth attendants, and DPT3 vaccination.

## Impact

Botswana has made significant progress in malaria control. The number of confirmed malaria cases reported annually has declined from 3,362 during 2000–2005 to only 456 cases in 2013. Malaria deaths have declined from 21 to 7 during the same period. As such, the country has achieved the international target of reducing malaria burden by 75% since 2000. However, the number of malaria cases in 2013 increased to 456 from 308 in 2012 and deaths increased in 2013 to 7 compared with 3 deaths in 2012.

## Key Challenge

- Achieving and maintaining IRS coverage above 80%.

## Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Optimise quality of care	Urgently investigate and address reasons for low IRS coverage	Q4 2014		Botswana conducted a review and planning meeting and as a result has strengthened the community mobilization component of the IRS programme. The country expect to see an increase in IRS coverage as a result
Address funding	Ensure the GF New Funding Model concept note is submitted by Q4 2014 and ensure that resources are allocated to malaria control at a level that is sufficient to sustain the gains made in recent years	Q4 2014		The GF New Funding Model concept note will be submitted in January 2015

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH <sup>1</sup> : Optimise quality of care	Ensure all facilities are baby friendly by implementing the ten steps to successful breastfeeding, providing follow-up support to breastfeeding mothers and enhancing community awareness	Q1 2013		The ACSD Strategic Plan includes a revised IYCF policy. The IYCF Strategy 2014-2017 directs efforts and resources to implementing essential nutrition interventions and includes targets to increase exclusive breastfeeding from 20% to 33% by 2018. Community based activities are carried out by Health Education Assistants and National Service participants who undertake interventions including on breastfeeding. An ACSD communication strategy and video promotes family and community practices. World Breastfeeding Week is commemorated annually as an advocacy tool to promote optimal IYCF and to motivate communities. Health workers and mother support groups are trained on the Baby Mother Friendly Hospital Initiative. IEC materials are used by District Management Teams, Hospitals and clinics, and include posters and guidelines on breastfeeding
