Malaria transmission in Chad is intense in the south of the country. The annual reported number of malaria cases in 2013 was 1,272,841 with 1,881 deaths.
Chad ALMA Quarterly Report
Quarter Four, 2014

Progress
Chad has banned oral artemisinin-based monotherapies and has introduced a policy on Community Case Management of malaria and pneumonia. Chad has secured resources to meet the majority of the LLIN and public sector ACT needs for 2014. Additionally the country has procured sufficient LLINs to achieve universal coverage. The country has significantly enhanced the tracking and accountability mechanisms with the development of a Reproductive, Maternal, Newborn and Child Health Scorecard.

Impact
The annual reported number of malaria cases in 2013 was 1,272,841 with 1,881 deaths.

Key Challenge
• Weak health information system.
