

Scorecard for Accountability and Action

The annual reported number of malaria cases in 2014 was 35,725 with 15 deaths.

Metrics

Commodities Financed and Financial Control		
LLIN financing 2016 projection (% of need)	100	Target achieved or on track
Public sector RDT financing 2016 projection (% of need)	100	Target achieved or on track
Public sector ACT financing 2016 projection (% of need)	100	Target achieved or on track
World Bank rating on public sector management and institutions 2015 (CPIA Cluster D)	2.5	Not on track
Insecticide Resistance Monitoring, Implementation and Impact		
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	2	Progress but more effort required
Insecticide resistance monitored since 2014 and data reported to WHO		Target achieved or on track
National Insecticide Resistance Monitoring and Management Plan		Target achieved or on track
Scale of Implementation of iCCM (2013)		Target achieved or on track
Operational LLINIRS coverage (% of at risk population)	▲ 98	Target achieved or on track
>75% Decrease in Malaria Incidence Projected 2000–2015		Target achieved or on track
Tracer Indicators for Maternal and Child Health		
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2015)	60	Target achieved or on track
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2015)	35	Not on track
% deliveries assisted by skilled birth attendant	34	Not on track
Postnatal care (within 48 hrs)		No data/Not applicable
Exclusive breastfeeding (% children < 6 months)	69	Target achieved or on track
Vitamin A Coverage 2014 (2 doses)	▲ 49	Progress but more effort required
DPT3 coverage 2015 (vaccination among 0-11 month olds)	95	Target achieved or on track

Malaria

Progress

Eritrea has made significant progress in scaling-up malaria control interventions. Eritrea has secured sufficient financing to maintain universal coverage of key anti-malarial interventions in 2016. The country has scaled up implementation of iCCM. Eritrea has recently increased coverage of vector control. The country has carried out insecticide resistance monitoring since 2014 and has reported the results to WHO and has recently completed the national insecticide resistance monitoring and management plan. Eritrea was awarded the 2016 ALMA Award for Excellence for achieving the Millennium Development Goals (MDGs) target for malaria.

Impact

Eritrea has made significant progress in malaria prevention and control. The number of malaria cases (probable and confirmed) has decreased from 125,746 in 2001 to 35,725 in 2014. In the same period malaria deaths declined from 133 to 15. WHO projects that the country will achieve a greater than 75% decrease in malaria incidence between 2000 and 2015.

Previous Key Recommended Action

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Address vector control coverage	Identify and address reasons for decreasing vector control coverage	Q4 2016		190,000 LLINs were delivered to the country in the second quarter of 2016 increasing operational coverage to 98%

MNCH

Progress

Eritrea has achieved good coverage of the tracer MNCH interventions of DPT3, exclusive breastfeeding and ART coverage in the total population.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	a) Identify and address reasons for decreasing DPT3 coverage	Q2 2016		Eritrea has increased DPT3 coverage to 95%
	b) Work to accelerate coverage of ARTs in children under 14 years of age	Q1 2017		Deliverable not yet due but Eritrea has increased ART coverage by 5% in the total population and by 6% in children

Eritrea has responded positively to the MNCH recommended actions addressing low coverage of skilled birth attendants, vitamin A, CPIA Cluster D and postnatal care. The country continues to track progress as these actions are implemented.
