“We will do all in our power to make this disease history ...”
—HIS MAJESTY KING MSWATI III OF THE KINGDOM OF ESWATINI

“The challenges malaria-endemic countries are facing due to COVID-19 could severely disrupt anti-malaria campaigns, hinder routine health service delivery with devastating impact to national programmes built on over two decades of sustained investments. It is therefore critical that African Union Member States increase tracking and accountability efforts to sustain access to essential services including for malaria during the COVID-19 pandemic.”
—HIS EXCELLENCY UHURU KENYATTA, PRESIDENT OF REPUBLIC OF KENYA
## ALMA Scorecard for Accountability and Action

### First Quarter, 2021
