“We will do all in our power to make this disease history …”

—HIS MAJESTY KING MSWATI III OF THE KINGDOM OF ESWATINI

“The challenges malaria-endemic countries are facing due to COVID-19 could severely disrupt anti-malaria campaigns, hinder routine health service delivery with devastating impact to national programmes built on over two decades of sustained investments. It is therefore critical that African Union Member States increase tracking and accountability efforts to sustain access to essential services including for malaria during the COVID-19 pandemic.”

—HIS EXCELLENCY UHURU KENYATTA, PRESIDENT OF REPUBLIC OF KENYA

ALMA SCORECARD
FOR ACCOUNTABILITY AND ACTION

Second Quarter, 2022
### ALMA Scorecard for Accountability and Action

**Second Quarter, 2022**

This scorecard tracks progress towards the goal of eliminating malaria by 2030, focusing on indicators such as public sector ACT financing, malaria case incidence, and DPT3 coverage. Each country is evaluated based on whether targets are achieved or on track, and there are additional indicators for maternal and child health, NTDs, and COVID-19.

#### Key Indicators
- **Target Achieved or On Track**
- **Progress but More Effort Required**
- **Not On Track**
- **Not Applicable**
- **Countries with a Malaria Control/Elimination Scorecard**

#### Data Source
- Data from RBM Partnership to End Malaria
- Data from World Health Organization
- Data from United Nations Children’s Fund (UNICEF)
- Data from United Nations Development Programme (UNDP)

#### Additional Notes
- **Increase Since Last Update**
- **Decrease Since Last Update**
- **With the Support of RBM Partners**
- **Produced in Collaboration with WHO**
