

## Scorecard for Accountability and Action

Malaria transmission in Chad is intense in the south of the country. The annual reported number of malaria cases in 2015 was 1,490,556 with 1,572 deaths.

### Metrics

Commodities Financed and Financial Control		
LLIN financing 2017 projection (% of need)	86	
Public sector RDT financing 2017 projection (% of need)	51	
Public sector ACT financing 2017 projection (% of need)	47	
World Bank rating on public sector management and institutions 2016 (CPIA Cluster D)	2.7	
Insecticide Resistance Monitoring, Implementation and Impact		
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	2	
Insecticide resistance monitored since 2014 and data reported to WHO		
National Insecticide Resistance Monitoring and Management Plan		
Scale of Implementation of iCCM (2016)		
Operational LLIN/IRS coverage (% of at risk population)	100	
Estimated change in malaria incidence rate (2010–2015)		
Estimated change in malaria mortality rate (2010–2015)		
Tracer Indicators for Maternal and Child Health		
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2016)	39	
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2016)	13	
% deliveries assisted by skilled birth attendant	34	
Postnatal care (within 48 hrs)	15	
Exclusive breastfeeding (% children < 6 months)	1	
Vitamin A Coverage 2014 (2 doses)	96	
DPT3 coverage 2016 (vaccination among 0-11 month olds)	78	

### Key

	Target achieved or on track
	Progress but more effort required
	Not on track
	No data
	Not applicable

## Malaria

### Progress

Chad has carried out insecticide resistance monitoring since 2014 and has reported the results to WHO. The country has also scaled up iCCM implementation and has achieved operational universal coverage of LLINs. The 2017 ALMA Award for Excellence for Leadership was awarded to H.E. Idriss Déby, The President of Chad.

### Impact

The annual reported number of malaria cases in 2015 was 1,490,556 with 1,572 deaths. WHO estimates that the country has achieved a change of less than 20% in the malaria incidence rate and malaria mortality rate for the period 2010 - 2015.

### Key Challenge

- Weak health information system.

### Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Vector Control	Given the reported mosquito resistance to 2 classes of insecticide, urgently finalise and implement the national insecticide resistance monitoring and management plan	Q1 2017		The insecticide resistance management plan will be developed once the data from the current monitoring exercise are analysed. The NMCP will request the needed technical assistance from WHO/AFRO
Enact high level policy and strategy change	Improve rule-based governance, quality of budgetary and financial management, efficiency of revenue mobilisation, quality of public administration, and transparency and accountability in the public sector	Q3 2013		No progress reported

### New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
Address Funding	Work to accelerate the signature of the GF grant	Q4 2017

## MNCH

### Progress

Chad has achieved high coverage in the tracer MNCH intervention, vitamin A coverage. The country has enhanced the tracking and accountability mechanisms with the development of a Reproductive, Maternal, Newborn and Child Health Scorecard.

### Previous Key Recommended Actions

Chad has responded positively to the MNCH recommended actions addressing low coverage of skilled birth attendants, which have since increased coverage. Additionally, the country has responded positively to the recommended actions for exclusive breastfeeding, accelerating coverage of ARTs and the lack of data for postnatal care and continues to track progress as these actions are implemented.

## New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
MNCH <sup>1</sup> : Optimise quality of care	Work to accelerate coverage of ARTs in the total population and in children under 14 years of age	Q2 2018

### Key

	Action achieved
	Some progress
	No progress
	Deliverable not yet due
