

Scorecard for Accountability and Action

The entire population of Sierra Leone is at high risk of malaria. The annual reported number of malaria cases in 2014 was 1,898,852 with 2,848 deaths.

Metrics

| Commodities Financed and Financial Control | |
|---|-----|
| LLIN financing 2016 projection (% of need) | 100 |
| Public sector RDT financing 2016 projection (% of need) | 100 |
| Public sector ACT financing 2016 projection (% of need) | 100 |
| World Bank rating on public sector management and institutions 2014 (CPIA Cluster D) | 3.1 |
| Insecticide Resistance Monitoring, Implementation and Impact | |
| Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010 | 0 |
| Insecticide resistance monitored since 2014 and data reported to WHO | |
| National Insecticide Resistance Monitoring and Management Plan | |
| Scale of Implementation of iCCM (2013) | |
| Operational LLIN/IRS coverage (% of at risk population) | 100 |
| >75% Decrease in Malaria Incidence Projected 2000–2015 | |
| Tracer Indicators for Maternal and Child Health | |
| Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2014) | 20 |
| Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2014) | 9 |
| % deliveries assisted by skilled birth attendant | 60 |
| Postnatal care (within 48 hrs) | 73 |
| Exclusive breastfeeding (% children < 6 months) | 32 |
| Vitamin A Coverage 2013 (2 doses) | 99 |
| DP T3 coverage 2014 (vaccination among 12-23 month olds) | 83 |

Malaria

Progress

Sierra Leone has secured sufficient resources to achieve universal coverage of LLINs, RDTs and ACTs in 2016 and has distributed sufficient LLINs to achieve operational universal coverage.

Impact

The annual reported number of malaria cases in 2014 was 1,898,852 with 2,848 deaths. WHO, through modeling, estimates that there has been a less than 50% decrease in malaria incidence between 2000 and 2015.

Previous Key Recommended Action

| Objective | Action Item | Suggested completion timeframe | Progress | Comments - key activities/accomplishments since last quarterly report |
|-----------------|---|--------------------------------|----------|---|
| Address funding | Ensure the GF New Funding Model concept note is submitted by Q1 2015 and ensure that resources are allocated to malaria control at a level that is sufficient to sustain the gains made in recent years | Q1 2015 | | Sierra Leone submitted the Global Fund concept note in Q1 2016 |

New Key Recommended Action

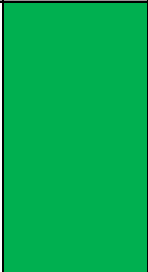

| Objective | Action Item | Suggested completion timeframe |
|----------------|--|--------------------------------|
| Vector Control | Prioritise mosquito insecticide resistance testing and finalise and implement the national insecticide resistance monitoring and management plan | Q1 2017 |

MNCH

Progress

The country has achieved high coverage in the tracer MNCH interventions postnatal care and vitamin A. Sierra Leone has enhanced the tracking and accountability mechanisms with the development of the Reproductive, Maternal, Newborn and Child Health Scorecard. Sierra Leone has responded to the challenge of the post ebola recovery. The country has developed and put in place a recovery plan and health systems building strategy and is mobilizing resources for it.

Previous Key Recommended Actions

| Objective | Action Item | Suggested completion timeframe | Progress | Comments - key activities/accomplishments since last quarterly report |
|---|--------------------------------|--------------------------------|--|---|
| MNCH ¹ : Optimise quality of care | Work to increase DPT3 coverage | Q4 2016 |  | Following the Ebola outbreak, poor attendance at health facilities and limited outreach led to a fall in immunisation rates. In November 2015, the country carried out a campaign to identify defaulters and enhance coverage |

Sierra Leone has responded positively to the MNCH recommended action addressing low coverage of exclusive breastfeeding and continues to track progress as this action is implemented.

New Key Recommended Action

| Objective | Action Item | Suggested completion timeframe |
|---|--|--------------------------------|
| MNCH ¹ : Optimise quality of care | Work to accelerate coverage of ARTs especially in children under 14 years of age | Q1 2017 |
