

Scorecard for Accountability and Action

Metrics

Commodities Financed and Financial Control	
LLIN financing 2018 projection (% of need)	100
Public sector RDT financing 2018 projection (% of need)	100
Public sector ACT financing 2018 projection (% of need)	100
World Bank rating on public sector management and institutions 2017 (CPIA Cluster D)	2.8
Insecticide Resistance Monitoring, Implementation and Impact	
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	3
Insecticide resistance monitored since 2015 and data reported to WHO	
National Insecticide Resistance Monitoring and Management Plan	
Scale of Implementation of ICCM (2017)	
Operational LLINIRS coverage (% of at risk population)	100
Reduced Malaria Incidence by >40% by 2020 (vs 2015) (projected)	
Tracer Indicators for Maternal and Child Health and NTDs	
Mass Treatment Coverage for Neglected Tropical Disease (NTD index, %)(2016)	77
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2017)	57
Estimated % of children (0-14 years old) living with HIV who have access to antiretroviral therapy (2017)	30
% deliveries assisted by skilled birth attendant	45
Postnatal care (within 48 hrs)	71
Exclusive breastfeeding (% children < 6 months)	57
Vitamin A Coverage 2016 (2 doses)	9
DPT3 coverage 2017 (vaccination among 0-11 month olds)	90

The entire population of Togo is at high risk of malaria. The annual reported number of malaria cases in 2016 was 1,183,265 and 847 deaths.

Malaria

Progress

Togo has secured sufficient resources to fund the LLINs, RDTs and ACTs required in 2018. The country has distributed sufficient LLINs to achieve 100% operational coverage. Togo has finalised the national insecticide resistance monitoring and management plan.

Impact

The annual reported number of malaria cases in 2016 was 1,183,265 and 847 deaths.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Enact high level policy and strategy change	Improve rule-based governance, quality of budgetary and financial management, efficiency of revenue mobilisation, quality of public administration, and transparency and accountability in the public sector	Q2 2014		The country has improved the rule-based governance, quality of budgetary and financial management, efficiency of revenue mobilisation, quality of public administration, and transparency and accountability in the public sector. There has been a 0.1 increase in Cluster D CPIA

Togo has responded positively to the recommended action on monitoring national insecticide resistance.

MNCH and NTDs

Progress

Togo achieved high coverage of the tracer MNCH intervention exclusive breastfeeding and DPT3 vaccination, and has recently increased coverage of ARTs in the total population.

Progress in addressing Neglected Tropical Diseases (NTDs) in Togo is measured using a composite index calculated from preventive chemotherapy coverage achieved for lymphatic filariasis, onchocerciasis, schistosomiasis, and soil transmitted helminths. Preventive chemotherapy coverage in Togo is high for lymphatic filariasis (100%) and schistosomiasis (94%). Coverage is good for onchocerciasis (54%) and soil transmitted helminths (68%). Overall, the NTD preventive chemotherapy coverage index for Togo in 2016 is 77, which represents no change compared with the 2015 index value (78).

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	a) Address the lack of vitamin A coverage data	Q3 2017		The country has reported on vitamin A coverage
	b) Investigate and address the reasons for the decrease in skilled birth attendants	Q4 2018		Deliverable not yet due

¹ MNCH metrics, recommended actions and response tracked through WHO MCA

Togo has responded positively to the MNCH recommended action addressing low coverage of ARTs in children and continues to track progress as this action is implemented.

New Key Recommended Action

Objective	Action Item	Suggested completion timeframe
MNCH ¹ : Optimise quality of care	Investigate and address the reasons for the reported low vitamin A coverage	Q2 2019

Key

	Action achieved
	Some progress
	No progress
	Deliverable not yet due
