

Scorecard for Accountability and Action

Malaria transmission in Chad is intense in the south of the country. The annual reported number of malaria cases in 2014 was 1,513,772 with 1,720 deaths.

Metrics

Commodities Financed and Financial Control	
LLIN financing 2016 projection (% of need)	78
Public sector RDT financing 2016 projection (% of need)	61
Public sector ACT financing 2016 projection (% of need)	50
World Bank rating on public sector management and institutions 2015 (CPIA Cluster D)	2.7
Insecticide Resistance Monitoring, Implementation and Impact	
Insecticide classes with mosquito resistance in representative sentinel sites confirmed since 2010	2
Insecticide resistance monitored since 2014 and data reported to WHO	
National Insecticide Resistance Monitoring and Management Plan	
Scale of Implementation of iCCM (2013)	
Operational LLIN/IRS coverage (% of at risk population)	89
>75% Decrease in Malaria Incidence Projected 2000–2015	
Tracer Indicators for Maternal and Child Health	
Estimated % of Total Population living with HIV who have access to antiretroviral therapy (2015)	36
Estimated % of children (0–14 years old) living with HIV who have access to antiretroviral therapy (2015)	22
% deliveries assisted by skilled birth attendant	34
Postnatal care (within 48 hrs)	15
Exclusive breastfeeding (% children < 6 months)	1
Vitamin A Coverage 2014 (2 doses)	96
DPT3 coverage 2015 (vaccination among 0-11 month olds)	55

Malaria

Progress

Chad has carried out insecticide resistance monitoring since 2014 and has reported the results to WHO. The country has also scaled up iCCM implementation.

Impact

The annual reported number of malaria cases in 2014 was 1,513,772 with 1,720 deaths. WHO, through modeling, estimates that there has been a less than 50% decrease in malaria incidence between 2000 and 2015.

Key Challenge

- Weak health information system.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
Vector Control	Given the reported mosquito resistance to 2 classes of insecticide, urgently finalise and implement the national insecticide resistance monitoring and management plan	Q1 2017		Chad is seeking technical assistance to support the finalisation of the national insecticide resistance monitoring and management plan
Enact high level policy and strategy change	Improve rule-based governance, quality of budgetary and financial management, efficiency of revenue mobilisation, quality of public administration, and transparency and accountability in the public sector	Q3 2013		No progress reported

MNCH

Progress

Chad has achieved high coverage in the tracer MNCH intervention, vitamin A coverage. The country has enhanced the tracking and accountability mechanisms with the development of a Reproductive, Maternal, Newborn and Child Health Scorecard.

Previous Key Recommended Actions

Objective	Action Item	Suggested completion timeframe	Progress	Comments - key activities/accomplishments since last quarterly report
MNCH ¹ : Optimise quality of care	Work to accelerate coverage of ARTs in the total population and in children under 14 years of age	Q1 2017		Deliverable not yet due but Chad has increased ART coverage by 7% in the total population and by 5% in children. Chad has developed a national paediatric ART acceleration plan aligned to 90-90-90 (2016-2018/9) and has shifted the policy to Test-and-Treat all children and Option B+ for PMTCT. The country is scaling up case-finding strategies in priority regions in line with the national paediatric ART acceleration plan and is decentralising paediatric ART services with plans to extend treatment coverage to 10 district hospitals and 142 health centres

Chad has responded positively to the MNCH recommended actions addressing low coverage of skilled birth attendants, which have since increased coverage. Additionally, the country has responded positively to the recommended actions for exclusive breastfeeding and the lack of data for postnatal care and continues to track progress as these actions are implemented.
